## **YNPN Virtual Fair: Graduate School & Fellowship Programs**

*Saturday, January 30, 2021*

*Noon to 4:30 pm EST*

Our Virtual Fair offers a platform for graduate school programs and fellowship programs to connect directly with young, emerging, nonprofit professionals across the nation. Attendees will be members from the YNPN Network chapters, along current participants and alumni of service programs like the Jesuit Volunteer Corps, Public Allies, AmeriCorps, and City Year.

The fair will also include panels with graduate school alumni, admissions staff, and fellowship alumni sharing advice and information on navigating the application process, how these experiences can advance your career, and how to find funding, grants, scholarships, and apply for financial aid.

Due to YNPN's mission and commitment to diversity, equity, and inclusion, the panels and information presented will have a specific focus on how these important leadership and career pathways can be more accessible to aspiring nonprofit professionals from underrepresented and underserved communities.

An outline of the schedule for the virtual fair is included below, and additional information will be added to [our event registration page](#) as additional programs and panelists are confirmed.

## Event Schedule
